Number 7

## From My Point of View Joyce WB9NUL

Once again I must tell you about another of our members who has passed away. Carol, KI0JD left us with a heavy heart but with so many wonderful memories. Please keep Birger, KA0DDJ in your prayers.

K0AYO, Bob is looking for someone to help him with Morse code. Anyone in the Olathe, Kansas area please contact me or Bob's wife Laura. Bob has a speech problem and wants to get on CW.

In just a week we will be in Michigan enjoying friends and family. My daughter will be joining her father, W9JL at the convention along with grandson Cody. Chuck, AD8W says that there are over 100 people coming to the banquet.

I had a computer problem recently. Of course it impacted my county hunting program. I managed to save everything except the last 8 months. I know that I worked someone in Carrol, Ohio in that time period. If you happen to check your logs and find me in there please get in touch with me. I'm down to 5 for bingo, which includes the county in Ohio.

We're looking forward to seeing who wins the radio(s) and who gets all the special plagues at the convention.

Till next month, 73,

Joyce WB9NUL

County hunting is change: Our life is what our thoughts make it.

I was in the shack and had just worked Rick on twenty meters when five wasps flew past my vision towards the window. I was startled by this unexpected fly-by and checked to see if the door was open. It was closed. I logged the contact, then opened the window and using a folded Texas map I fanned the wasps out the window. I shut the window. Where had they come from, I looked around and saw no signs of a paper pulp nest. Perhaps there was a momentary rip in the time fabric between our universe and the parallel universe. Why wasps and not a county hunter mobile operating in a county located in the parallel universe. It would have been my first contact towards my Parallel Universe award. This concerns me. Is the fabric of time collapsing and I still need two counties for my Master Gold award. Perhaps Gator's elixir caused the time warp.

How the wasps materialized had me concerned. Dare I tell anyone? Would it get the same reaction as when I said I was a county hunter. This burden is hard to bear by oneself and Gator is at an ACE meeting. The best thing to do at a time like this is wash clothes. It is a wholesome pastime and is a cleansing of the fabric. I was in the utility room loading the washer when out of the corner of my eye I saw a wasp. I remained stationary and watched the wasp. The wasp flew up to the rack of clothes hangers and went inside the cardboard tube that formed the bottom of the wire coat hanger. I carefully looked in the cardboard tune and saw wasp eggs. I assumed this since I am a county hunter and not a wasp expert.

The cartoon light bulb flashed above my head, perhaps it was not a tear in the fabric of our universe but a normal function of wasp play. I felt better and started off to the shack. I stopped and went back and started the washer. An unstarted washer is like a mobile on a county line with the radio off. I arrived at the shack, went inside and looked around. There hanging on the wall was my 2008 ARRL field day shirt. I took the shirt off the hanger, and yes the cardboard bottom had wasp eggs. The problem has been solved and the fabric between our universe and the parallel universe has not been compromised. County hunting will go onward. Hallelujah.

I looked at my Alabama QSO party log data that Gator compiled prior to his departure to the ACE meeting. I almost missed this QSO party when I hit a tree limb on the way to picking up Gator. You know right away when the antenna hits a tree limb, the first reaction is to say darn. I stopped to survey the damage. The 40-meter resonator, which I had pointed aft for less wind resistance, hit the roadbed and broke. The 20-meter resonator broke where the stinger attaches. I taped the 20-meter resonator and replaced the 40-meter resonator with one recently repaired but not tested. I put new guys on the antenna then installed it back on the van, picked up Gator and headed to Alabama. We had had our shots and our papers were in order.

I operated CW through 16 Alabama counties and traveled 742 miles, which included to and from my QTH. The bands went out as we entered Coosa County and came back with a few miles remaining in the county. This allowed me to make five QSO's so it was not a total Coosa wipeout. The weather was nice and the bands, with the one exception, were good. I made 305 QSO's on 20-meters and 474 QSO's on 40-meters and worked 45 multipliers. I also made four QSO's on 15-meters but nothing on ten meters. I did not work the States of ME, VT, LA, HI, ID, and NV. I was running stations from county line to county line on 40-meters and never got on 80-meters.

I see Gator also did my ARRL VHF QSO Party logs. I did CW on six meters in the ARRL VHF QSO party. Boy that was the most fun I have had on 6-meters since I tried brandy. I got 106 new counties, two K prefix, four for 5<sup>th</sup> time, two natural bingo and seven call combos. A contest is a friend of a county hunter in the know.

I look at the clock and it's approaching nap time. I notice Gator had made a list of mobiles heard on the county hunter CW frequencies.

AA9KH, AB4YZ, AB7RW, AC8W, AE3Z, AI5P, AK8A, G4KHG, K0ARS, K0UU, K2HVN, K4YT, K4ZGB, K7DM, K8ZZ, K9JWV, KA3QLF, KB6TAL, KB6UF, KC3X, KD5JWC, KH6LC, KH7C, KI4YAH (NEW), KM1C, KN4Y, N0ZA, N2OO, N4AAT, N4AKP, N8II, N9JF, NA7W, NF0N, NM2L, NN9K, W0GXQ, W0NAC, W4DF, W4HSA, W8II, W8MP, W8PC, W9MSE, WB4KZW, WG6X.

I check the calendar and see there are the North American CW QSO party and the Maryland, New Jersey, Ohio and Hawaii state QSO parties. I got to tell Gator how much fun he missed at the ARRL field day. Nap time is arrived.
